THE FECK FILE

Hear Ye, Hear Ye!

We're thrilled to announce our newly designed website! Please take a moment to peruse our new site, www.deehan.com. We humbly share the company's philosophy and vision with our clients, and encourage you to

view the work we have completed over the last twenty one years and more to come!

You will also learn more about the team, how we've found ourselves working at Deehan Landscaping, and learn our favorite plants. In addition, there is information regarding company policies, calendar of events throughout

the year, and even the opportunity to re-read our delightful newsletters once again!

We welcome your comments and look forward to adding more of our projects this coming year. Watch out, you may find your property proudly displayed too!

Employee Spotlight: Sergio Bonilla

Sergio has the longest tenure in DLI among the Team Leaders. Over the years, Sergio has taken on many roles within the company and has developed into a well rounded landscape professional. Currently, his latest role as Outdoor Illumination Specialist has become his very favorite. He finds the technical nature of lighting installation challenging and loves the effects.

Sergio grew up in Usulután, El Salvador, a small farming community in the southern part of the country. Growing up on his grandfather's ranch, Sergio looked up to him as his hero and wanted to follow in his footsteps. When he was five years old, an accident during cattle branding operations left Sergio with a brand on his arm. He never felt bad about this accident, but rather thought of himself as his grandfather's property and life. He still remembers the incident to this day with pride.

Sergio and his wife Sandra both share the same enduring work ethic and heavy sense of responsibility for their families back home. During his spare time, he enjoys family outings to the Botanic Gardens, and get-togethers with friends and family. He has four sons, William, Luis, Alexander and Juan Antonio (named after his grandfather).
